

Norlab *Fluorescent Tracer* *Dry Powder*

- *Dry Powder* is a safe, biodegradable, water soluble & nontoxic concentrated dye powder for high volume tracing applications.
- *Dry Powder* is packaged in a 1 LB or 2 LB container. Ask for special packaging needs (i.e. 25 LBS or more) and bulk pricing.
- Due to many variables (amount of water, visible light, rate of flow, distance traveled, number of solids, etc.) it is nearly impossible to provide exact dosage. However, approximate dosage (visible to the naked eye) is:
1 LB: per 12,000 gallons of water.

Available Colors

Fluorescent Yellowgreen

Fluorescent Red

Fluorescent Orange

High Intensity Blue

1 LB
