

# Fountain Dye

## SHOW YOUR SUPPORT WITH COLOR!

- *Fountain Dye* is a safe, biodegradable, water soluble & non-toxic concentrated liquid dye formulated as a water colorant for fountains.
- *Fountain Dye* is non-staining. Dye can be dissipated with bleach, chlorine & direct sunlight.
- *Fountain Dye* is packaged individually either in a 1-gallon container (or case of 4 x one gallons) or 16oz bottle (case of 16 x 16oz only.)  
Note: Ask us about bulk container sizes (i.e. 5 gal, 20-55 gal drum, etc.) & pricing.
- Recommended *Fountain Dye* Dosage:
  - 1 x 16oz bottle: per 150 gallons of water (100 ppm)
  - 1 x gallon: per 1,200 gallons of water (100 ppm)Note: However will provide a light color tint up to 10x's Recommendation (i.e. 16oz : 1,500 Gals/ 1 Gal : 12,000 Gals)
