

# Norlab *Tracer Dye Bag*

- *Tracer Dye Bag* is a safe, biodegradable, water soluble, non-toxic granular dye packaged in a 11.5mm x 6.5mm water-soluble bag.
- *Tracer Dye Bag* doesn't freeze therefore it is ideal for cold weather tracing dye applications.
- *Tracer Dye Bag* is an ideal choice for septic system analysis.
- *Tracer Dye Bag* is clean to handle, making it an ideal choice for *indoor dye testing applications*. "No mess" ...without touching or breathing dye dust.
- *Unit dosage, fast release dye... provides quicker results.*

## How To Use

Simply toss water soluble bag into the water body. For Septic tests: Flush water-soluble bag down the toilet. Will not clog the toilet & will dissolve immediately releasing the dye.

## Dosage

1 x Water Soluble Bag: Per 1,500 Gallons of Water or Sewage.

## Available Colors    Price *(Shipping Not Included)*

**YellowGreen**    1 Case *Tracer Dye Bag* (20 x Water Soluble Bags) @ **\$149.00**  
**Red**    (Note: Call for Pricing on Larger Quantities)
