

NORLAB DYE STRIPS™

Norlab's **Dye Strips** are the ultimate solution for low to medium volume tracing applications with our biodegradable, water-soluble, and non-toxic dye. Specially formulated to withstand cold temperatures without freezing, it's the perfect choice for year-round use, even in harsh conditions. Designed for clean handling, this dye ensures a mess-free experience, making it ideal for indoor dye testing applications. Each unit comes individually wrapped in a perforated package for quick, precise, and effortless release.
