Norlab's **Tracer Dye Bags** are a convenient, 100% mess-free solution for dye testing. Powder dye enclosed in a fully water-soluble bag, these dye packs are designed to dissolve effortlessly upon contact with water, sewage, or other liquids, releasing their vibrant, highly effective dye. Safe for use in various environments, they are non-toxic, biodegradable, and environmentally friendly.

Simply toss the bag into the desired liquid, and let it do the work—no mess, no fuss, just precise and reliable results!
